## NAGOMI armchair

Nagomi by Inoda+Sveje invites a sense of calm where sculptural softness meets meticulous craftsmanship. Inspired by the Japanese concept of harmony and balance, its gently flowing lines and ultra-light cast aluminium frame create a serene, understated presence. Handwoven Canax® detailing adds natural texture and lasting comfort, with finishes in linen aluminium with linen weave or dark bronze aluminium with copper weave. Designed for both dining and lounging, the collection includes an armchair, lounge chair, bench, dining tables with teak or ceramic tops on aluminium frames, and a lounger available with fixed legs, wheels, or stackable legs. Nagomi integrates effortlessly into any setting, offering spaces of quiet refinement.

COLLECTION 2026

## MAROA planter

Maroa is part of 'Domani by Tribù', an exclusive line created in collaboration with Domani, bringing together their mastery of handmade pottery with Tribù's vision of discreet luxury.

With Maroa, Tribù brings a collection of terracotta planters that radiate calm and add character without imposing themselves. Their textured surfaces, shaped by hand and finished in earthy tones, recall the generosity of nature. The name Maroa speaks of the earth's gift, translated into forms that strengthen an outdoor setting with quiet, timeless harmony. Continuing this spirit, the collection reflects Tribù's tradition of refinement – objects rooted in the earth, inviting pause, reflection and rest.

## TANAE rectangular rug

Rooted in Tribù's language of discreet luxury, the Tanae rectangular rugs bring a poetic layer of softness to the outdoors. Inspired by the texture of raffia and the gentle geometry of organic structures, their flat-woven, weather-resistant surface offers subtle tonal shifts and a tactile warmth. In linen and hemp, Tanae frames an outdoor space with quiet elegance, grounding it with ease and natural presence.

COLLECTION 2026

# TRIBÙ

## VERNA round umbrella

With Verna, shade becomes an experience of ease and elegance. The collection offers two distinct silhouettes: a round canopy with curved ribs for a soft, timeless look, and a square canopy with straight ribs for a clean, architectural presence. A seamless junction between mast and base creates a visually integrated profile, while the Canax®-wrapped handgrip adds warmth and a crafted touch. Opening and closing is smooth and intuitive, without the need for buttons or springs, letting the geometry of the design do the work. Frames are finished in powder-coated aluminium in linen or wengé, paired with high-performance canopies in chalk, nature grey, papyrus, or sandstone. In refined tones that harmonise with any Tribù furniture setting, Verna provides shade that feels as considered as the space it completes.

PIERGIORGIO CAZZANIGA

COLLECTION 2026

VIS À VIS modular sofa / double daybed

The 2026 Vis-à-Vis collection continues its story in premium plantation teak with subtle refinements to its modular character. The sofa has been reimagined with a softer, more voluminous cushion, outlined by its signature piping that lends a discreet graphic rhythm. The collection extends with a double daybed and an organically shaped corner module, complemented by low tables in teak or travertine that connect with ease or stand gracefully on their own. Dining tables in the same materials bring a natural sense of unity to the setting. Every element of Vis-à-Vis is designed to invite personal compositions that fit gracefully into any outdoor environment.

## CESTA swivel chair

Cesta draws inspiration from traditional basket weaving methods. From ancient plaiting and coiling to contemporary craftsmanship, today's artisans reinterpret time-honoured skills using aluminium and rope for elevated outdoor style, enjoyment, and durability. Distinguished by clean lines and minimal adornment, the woven backrest takes centre stage. Generous cushions soften the sleek frame, while the swivel seat offers gentle movement, perfect for relaxed groupings and intimate conversations. Alongside the linen Canax® with linen frame, Cesta is now offered in a warm new pairing of dark bronze aluminium and copper Canax®, adding depth and refined elegance to the collection.

## OTTO round counter height table

Otto draws inspiration from the rhythmic ribbon patterns found in Italian bar counters of the 1940s. Using a single, repeating element, it creates an endless and captivating surface that recalls the fluted pillars of ancient architecture, while significantly reducing the use of precious teak. The collection expands with counter-height editions in both round and rectangular formats, available with tabletops in travertine or ceramic in two refined tones. This timeless design sets the stage for outdoor moments that feel both welcoming and composed.

COLLECTION 2026

## T-TABLE coffee table, dining table, low dining & counter height table

A slender, powder-coated frame supports the seemingly floating top of T-Table, available in round, oval, and square versions. The tabletop comes in three luxurious finishes: hand-glazed lava stone from Vesuvius in colours that catch the light like rippling water, smooth solid teak from sustainably managed plantations for a warm contrast, or ceramic in three subtle, natural tones. The stainless steel frame is powder-coated in four elegant colours, with the table offered in a variety of lengths and heights. New additions include larger diameters and a counter-height T-Table, designed for leisurely evenings that stretch effortlessly into the night.
